

Title

Simplified Sudoku

Problem Description

Have the user enter integers between 1 and 4, inclusive, in all rows and columns of a 4x4 2D array. Check if the following rules hold:

- 1) Every row contains all numbers from 1 to 4, inclusive
- 2) Every column contains all numbers from 1 to 4, inclusive

Testing

Write out a good array and a bad array by hand, enter them into the program.

Time Target

- *** less than 15 minutes
- ** 15-25 minutes
- * greater than 25 minutes
