

Title

Max and Min

Problem Description

This problem is based on “Starting Out With C++”, Gaddis, Programming Challenges, Chapter 7, Exercise 1.

Copy and paste the two variables contained in max_and_min.txt (a constant and an array) into your main() function.

Find the min and max values contained in the array.

Testing

Test Input	Expected Output
	Max: 16224 Min: -16365

Time Target

- *** less than 5 minutes
- ** 5 – 10 minutes
- * greater than 10 minutes

Section

Arrays
